Media Partners

Global Alliance

Event Partner

OVERVIEW

The concept of medical tourism is all about involving patients who travel from one country to other to receive effective and cost-effective treatment for ailments or diseases. Other than affordable and successful healing, people also look for high-quality care and even better access of treatment. There are some countries which largely depend on Bangladesh for medical tourists and selling health service related equipment.

To cash in on the growing demand from Bangladesh's rising mid-income people, some hospitals of India, Thailand, Singapore and Malaysia have either opened their liaison offices or hooked clients through their consultants in Bangladesh. Some countries are willing to expand their business in Bangladesh for medical tourism. Keeping this study in mind Savor International Ltd initiate BANGLADESH INTERNATIONAL MEDICAL TOURISM EXPO (BIMTEX) as a concurrent exposition of MEDICAL BANGLADESH 2020. It is projected to be the largest platform in the country that brings international medical tourism specialists into direct contact with potential Bangladeshi patients.
