Meet Buyers in Bangladesh

Today's construction industry is a fertile ground for technology innovations and collective creativeness. Without improvements in the construction method and technology, the infrastructure development will not be sustainable for the country. In addition to that, one of the mandates of the Government of Bangladesh is to enable a business friendly environment and in order to achieve that infrastructure development is relevant and essential. Another correlated sector of infrastructure development is Water Management. In Bangladesh it is a critical issue owing to growing demand and increasing conflict between alternative uses. Demand for water is growing rapidly in agriculture mainly from irrigation for cereal production, the urban and industrial sector, fishery, inland navigation and salinity control etc. It is become a need of the time to adopt new products and technologies to meet the growing demand.

Savor International Limited has brought to you a new platform through virtual B2B meeting. Attendees of the B2B session will get a platform for the entire infrastructure, construction and water management professionals to talk, network and meet the world renowned supplier/ manufacturer of the latest products/ technologies in these industries.

Supplier/ Manufacturer Profile

Steel & Metal Fabrication

Light weight Products

Insulation Products

Bath & Sanitation

Ceramics & Stones

Construction Machinery

Doors, Windows & Systems

Elevators & Escalators

Energy Conservation Products

Glass & Glazing

Hardware & Fittings

Fire & Safety Automation

Construction Vehicles & Equipment

Construction Tools (Air, Hand & Power)

Water Treatment & supplier

Reverse osmosis – filtration

Softening – demineralization

Disinfection – desalination

Distillation - iron removal

Packaged drinking water –aeration

Biological treatment technologies

Sludge disposal

Clarifiers - UV systems

Ozonation – chlorination

Reuse & recycling

Instrumentation & Control

Meters – sensors

Indicators - test equipment

Supplier/ Manufacturer Profile

Water Conservation Storage, Transportation & Distribution, Supply & Storage

Tanks – pumps

Motors - pipes & tubes

Fittings & valves – pressure boosting

Rainwater harvesting

IT Solutions for Building & Construction Industry

Kitchen Technologies

Plywood & Veneer

Pre-Engineered Buildings

Roofing, Cladding & Facades

Tiles & Sanitary ware

Turnkey Consultancy

Waste Management & Recycling

Equipment & Components

Membranes – housings

Filter cartridges – pressure vessels

Chemicals - filter media

Filter presses – blowers

Boilers - cooling towers

Diffusers - domestic water purifiers

Accessories & spares

Buyers Profile

Traders & Importers

Plant/Project Owners

Facility & Operations Management

Consultants

Agents/Representatives/ Distributors

Project & Design Engineers
